

"What you need in a clutch"™

OGURA "SMART CLUTCH" CONTROL

*Unique closed loop system features soft start control
and overload protection in one compact module*

Soft Start:

Smooth clutch engagement

No belt screech or squeal - reduces "jolt and deck shake"

Extends component life

Lessens forces to mechanical parts

Eliminates stalling

and engine "droop"

Increases belt life

Reduces wear and breakage

Overload Protection:

Control disengages clutch when excessive slip is detected

More uptime for operator

Fewer replaced clutches

Prevents burned up clutches

Benefits:

- Simple installation
- Operator comfort
- Lower operating costs
- Reduced warranty cost
- Available as Soft Start Only
- Can be used on all Ogura

clutch sizes
